Can I get vouch copy for a detailed review

000 - May 25, 2018, 4:28 am

Since you're giving away vouch copy, I'll happily take one. I'll leave a detailed review within 24 hours.

Thank you, OP, for providing me a vouch copy.

Overall: 10/10

The first thing I noticed is the good pagination and format, meaning OP spent some time to take care of layout, which is one thing I highly appreciate. I can guarantee the method provided in the ebook is working and very effective if used properly, and not to mention very simple, even a newbie with zero knowledge can set it up. Once you're done with the setup, the rest is pretty much automated. The whole procedure will take about an hour or less, depending on how fast you can setup things. The guide allows you to do exactly what it promises. For the price of \$8.99, I recommend getting this ebook while it's not saturated.

Writing: 9/10

I don't think OP's first language is English, but neither is mine. Nevertheless the instructions OP gives you are very clear and all supported by images.

Method: 10/10

This is new to me, I have never seen something like this before.

So after the initial set up I made up to 0.001 in bitcoin daily, this is when I started off. But I've managed to scale this and I'm making more and now tweaking it. The scaling aspect of this method is also mentioned in the book btw. But the most work you have to do is the set up and then you can either scale or just maintain.

the method is 100% autopilot after setup?
do i need to keep my computer online 24/7 to have this profit?
This method work with a vps?

thanks

brian101 - May 27, 2018, 10:04 am

Yes its completely autopilot/hands free after set up. No need to keep your computer on or vps or anything like that...

Social media involved is involved, but there is no referrals or sign ups and also there isn't any investment in it either.

That's all I'll say about the method

I test the method currently and the step 2 is really hard for me, maybe 5 hours or more for this step.
1 day minimum i think

The reviews on the first page are done by members who haven't test it in real!

@brian101

The set up can take up to 2 hours, even 3 hours. With most new setups there's a learning curve as you're still finding out how everything works etc. It gets quicker the more you do it naturally

Read this: "The whole procedure will take about an hour or less, DEPENDING on how fast you can setup things."

I don't see how it will take "5 hours" let alone a whole day to setup everything. It's true, I haven't tested the method myself but at least I have working brain cells to know how certain things works and how long will it take.

To be fair if you did this in one hour it'd be a bit rushed. I'd say an hour and you can get a framework going. Then over the next few days fully set everything up and get the ball rolling.

My first impressions is that it seems an easy method and will take a long time to saturate, would need 1000s of people doing it to saturate it. It's fully white hat, literally nothing shady or immoral like a lot of methods here. I'm testing it out right now but using something I already have (can't go into detail without giving too much away) and if that pays off, I'll put the time into his exact method.

You can make money on autopilot after the setup but do not expect to earn up to 0.001 in bitcoin daily, the day after the setup. It requires time.

Like brian said in the thread: Social media involved, and if you started from 0 like me, it requires a lot of work at the start and interaction, to earn a decent amount.

But with some work (more than 1 days), you can expect steady earnings.

Greetings

Not yet! 0 profit, do not expect to earn bitcoin the first month or if you are lucky. It requires a lot of time. Like brian said in the thread: Social media involved, you need time and hard work. You can't earn this amount if you started from 0! In the ebook, the author don't provide exemples, only payment proof. You can't copy paste... It's not a SETUP and FORGET method! You need to work everyday.

I grabbed a copy of this ebook and will leave a brief review below:

This method is totally white hat and DOES require some initial setup. No, you will not make hundreds in the first week, but you can definely have a good platform setup quickly (few hours). I can't see this method becoming very saturated and rarely see competition. For under \$10, I think the book is a good purchase. The more time and effort you invest into this method, the more you can make. I think if you're really lazy, you should stay away from this method. For \$10, you'll learn a

method you never knew. It's a fairly reliable side idea to keep on auto pilot.

Overall rating: 8/10

I would give this a 10/10 as I've never seen something like this.

It means that it's worth the price. Just \$8.99 that's insane! It is worth more than what it is listed on.

My review after 1 month : i lost my times and my money!

I tried to contact brian to solve a problem but no reply....so I post this here!

The problem come from the ad publisher need for this method : Estimated daily income:
0.00000000 B (wanted: 0.00001000 B)

Since there are not enough paying advertisers for this ad unit, 100% of traffic is used to display

affiliate ads.

brian101 - June 27, 2018, 2:01 pm

Hi Anarchy2009

You've only invested in the ebook and haven't had to spend anything on the method itself thereafter. Nothing about this method requires you to spend a single dime, just to be clear.

I've messaged you plenty previously. You seem to come across one roadblock after another over some of just the easier steps mentioned in my ebook even though it practically spoonfeeds you a legitimate method, step by step with screenshots. Others can testify.

Not just that but the method is easily tweaked as well when you consider all the tools mentioned in the ebook.

I will PM you now but I'll appreciate it if you do not reveal details about this method publicly in future no matter how small.

Thanks

So when I got things fully up and running I made an average of 0.001 bitcoin daily which made a rough 0.007 bitcoin a week. It took a little while to get there because of setting up and tweaking.

I'm currently not using this as much as I've moved onto other projects which borrow from this method heavily to help me with scaling but it is still works.

about how much social interaction do I need to make? Phone calls or social media involved? If yes,
can I start off with freshly made social media accounts?

Your title states the method can be automated but reviews here suggest a constant need of
interaction to make any money... Which is it?

How much can we make a day? How much effort is needed?

Not only that but most of the people that get a VC on every method will only say how the method is
original or well written no one ever says if they actually earn money which everyone usually wonders
in the first place
