Method never seen before.

I will briefly explain the method, it is a simple thing that you will have to use a maximum of 20 minutes of your time to double your money.

You do not need to setup anything and also do not need products to sell.

It's a simple method that nobody ever thought of doing, this I'm sure!

You will need a minimum investment of \$20 to make \$40.

After this everything is multiplying.

Price: 90\$ [cupom 10% off: double]

Waiting for a review on this, does this method require someone to buy something from you?

Not. You just need to have \$20 to start.

You need to include more information if you want people to buy this, I am interested but it's not very convincing, is it whitehat/blackhat? Does it require BTC/PayPal? Is it guaranteed to work? Can it be repeated multiple times? Will it be saturated?

Waiting for a vouch copy to be reviewed.

I've been given a vouch copy,

Before he told me the method, I already had an idea of what it is due to the wording in his thread. I purchased this method from an off-site member at a much higher price so this price is a steal. The method works but in the PDF it should be explained a bit more in detail. OP should also state the risks (They're risk but if you're smart you can avoid losing your money or having it put on hold). You can EASILY double your money. The method is a lot easier if you're from the US imo also.

Thank you. Worth mentioning that I just made the pdf. then some parts are missing. I prefer to explain the direct step by step in the chat, so the pdf is kind of useless because I want it to have 100% profit!
