We are the largest Twitch view botting service in the market, feel free to contact our support through the website and you can see it in action. No idea where you got the fact that view botting is not possible anymore, it's probably some PR stunt from when they shutdown StreamBoosters and all of their associated websites.

An updating price or something would be nice as a user if i change the viewers count. Your pricing is not very clear in my opinion. Could be easier to see what it will cost for the customer IMHO

What's not clear about pricing? All the product keys are clearly labelled with their own prices and descriptions.

The control panel slider has nothing to do with purchasing anything, it's for activating your product.
