Thread: [Internal Server Error on Shell Upload](#)

**r3el** - May 26, 2018, 10:54 pm

i uploaded my shell like shell.php.jpg  
when i try to open it error Internal Server Error

there is any way to slove it ?

OP is trying to hack his univeristy

What OP doesnt understand is that a JPEG shell can only be used on a server that has a vulnerability where PHP can be converted from images. This vuln is ancient and its very rare to find this vuln now...
