Although you may just be planning on using this for acquiring games for personal use, many of my customers open up Steam Game shops and sell all the games they acquire through this method.

FAQ:

Can I get any game on Steam with this? - 99% of Steam Games are available, if the game is even slightly known it will be available.

Can I use this for DLC and other Steam items? - Yes you can

Does this method require any computer programming knowledge? - No, none at all

How long does it take to acquire games? - It depends on the games, 10-15 mins of NO EFFORT work at first, but as you build confidence they will be rolling in all the time

No effort work? - Yes, you can sit and watch Netflix, play Xbox/PC while doing this

Will this method get saturated? - No it will never get saturated

(Jun 29, 2015 10:14 AM)Sammich Wrote: [\[CITE\]](#) Just purchased this eBook and it looks absolutely fantastic! I see some folks saying that it's public, but I personally have never seen anything like this, or even remotely like it.

The author provides plenty of detail, and there's tons of little tips & tricks to help you out.

The layout is fairly basic, but very clean and easy to read.

As for support, Xero has been very friendly and helpful. Quick responses, and quality answers.

You have my vouch!

(Sep 8, 2013 05:56 PM)Sword Art Online Wrote: [\[CITE\]](#) This method does require a SMALL investment, but other than that, keep up the great work.

Everything is explained in detail as to what you have to do.

(Sep 8, 2013 05:56 PM)In?w?™ Wrote: [\[CITE\]](#) Received a vouch copy of the particular ebook. Well, it is a well written ebook, detailed, with numerous examples. I didn't notice any grammatical mistakes and even if there are they won't make understanding the ebook difficult.

OP, is really honest and in the beginning of the ebook he mentions that it will require some work. It is true, you will have to be patient and spend some time but in the end you will be really satisfied with the results. Despite that, you won't have to do anything difficult rather than just be patient and don't easily give up.

It is also important to know that, I have not seen this method anywhere and it doesn't involve doing surveys and such things.

I would surely recommend you buy this ebook, if you want to add some more games on your Steam account, unless you desire to be given the games completely auto-pilot, which, in my opinion is almost impossible.

(Sep 8, 2013 05:56 PM)Spouse Wrote: [\[CITE\]](#) It requires a investment for beginners but if your the average steam player this should be no avail to you. This was well thought out and structured. It is really good for profit wise if your not much of a steam person such as my self, still a fairly good way to make money even if you don't use steam this is a good money maker. Overall this e-book could get you a lot of money however it isn't much of autopilot it is more of the lines working with other people to get what you want, add a few thoughtful things or self thinking and you could make more money then by the book standards.

Grammar: 10/10- I saw you no errors here

Layout: 9/10- the layer was very good and detailed

Method: 10/10- Never seen anything like it or even thought of it nice one.

Easiness: 8/10 if your a noob maybe a bit harder but overall it is really easy

Saturation: 3/10- Very rare that I see stuff like this going around.

Edit: Method looks decent, testing it out now.

Investment is necessary, it's basically common sense but still a nice little method.

Edit: Method's working great, got CSGO for \$2.36. Huge vouch!

(Jan 4, 2014 04:19 PM)TheSgtLuca Wrote: [\[CITE\]](#) Ok, as promise i told i will post proof and review.

Review:

The book itself work, you will need some investment, for me, the investment was 13\$ and i got Nether Believer.

I suggest?

Hell Yeah , i suggest it. Also the owner of the book(Evocati) is much friendly!

Couldn't be happier with this method, working really well for me!

That's a terraria 4 pack btw :)

(Jan 5, 2014 04:23 PM)Dacreep Wrote: [\[CITE\]](#) This ebook is amazing, I've just started using it and have already received quite a few games, I was surprised by how easy it was to do the method and that it involved nothing blackhat!

(Jan 6, 2014 05:03 PM)Marlboro Red Wrote: [\[CITE\]](#) I bought this a little while ago, I don't even use steam much but there were a few games i really wanted to get. And you know what? I'm happy to say that I've spent about \$10 in total on my steam account

Great method, thanks

(Dec 23, 2013 03:13 PM)Blue Koala Wrote: [\[CITE\]](#) Evocati asked me to post proof of my steam account and the games that I have earned.

More than half of these are through this method

Unfortunately my old thread was locked for posting/bumping/deleting.

It has over 160 comments with loads of customer reviews, I have had more than one person ask me where to view past vouches, etc. So here is the link:

Absolutely wrong

King 69 - June 13, 2018, 12:59 am

Very interested with this but I need more details

Hysteriqu1 - June 13, 2018, 8:48 am

Bought it. we will see if it's the real deal.

Transaction ID : 5EV8971423687294T

Send pass in pm please.

Also, if this is the same method that was leaked on nulled and ebook sites that requires using steamtrades, i want a refund as that method is free on the internet.

Hysteriqu1 - June 14, 2018, 1:10 pm

It's been a day and a half with no pm.

Google Valve Tormentor/Steam Destroyer and find this for free.

Was leaked a long time ago and it very oversaturated. Been close to 2 days and have not even received a pm with password from OP. I have not received the product and no longer need as it is free. Submitted dispute as there hasn't been a response from seller.

Hello I sent you a PM

As I have purchased and I haven't heard from you. I thought this maybe the best way to get your attention
