Thread: [Are databases allowed to be sold?](#)

I have a pretty good sized archive of databases I've obtained over the years. Are they allowed to be sold at any section? It's private & public databases.

No, selling people's personal data is not allowed on-site, nor is the sharing/distribution of dumps.

Providing accounts that don't belong to you, whether in trades, for sale, or free, dumps are not allowed. The definition of a dump is a file with logins, passwords, personal details or emails. We do define "combo lists" as dumps as well.

I was assuming that but wanted to take a chance. Thank you. ?

Not at all. That is the kind of activity that is not allowed here.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.
