Hey. I had a question regarding the income stream.

Does living in another country (non-US f.e. Germany / Denmark / Sweden), affect incomes? Is it supported internationally?

Does this method require investment and/or additional payments in the methods itself?

Greetings,

I was referred to your thread by one friend of mine from here. Everything looks amazing. But seeing I'm new to these things, I'd hate to jump into it before knowing much about it.

So if you are still up, I'd love to talk about it and go over some details. If that's okay with you. PM me your Discord ID, I prefer talking over there.

Regards, Witcher.

How long does it take to earn from this method ?
Can it get saturated by the time?

Does it include marketing?

Thanks!

HONEST REVIEW MUST READ

Before I get onto the review I will say a few important things. This review is not an attempt to slander the seller or his product but it is my experience with the seller and his product. The seller refused to give me my money back. The 'Full refund warranty' is fake, he will tell you to read the poorly written ToS which most people like me will probably not see because the seller purposely reduced the size so small you are bound to miss it (its at the bottom of the thread hidden). I feel that is a cheap tactic and false advertisement as no one can get a refund unless you spend loads of money and time. If you do not get any money from the methods in his ebook, you will basically get your \$30 back which will not cover the massive losses from pursuing his methods.

If someone buys this ebook, you will receive a lack of support from his side. Seller refused to reply to my messages, did not reach an agreement. I even offered him an alternative solution without giving me my money back yet he did not reply to that either.. Completely ignored me.

Review of Ebook:

All of these methods you will most likely be aware of already. There is no secrets or any of the sort. So I do not know why the seller could not disclose some details of the methods before buying this ebook. The methods involved require you to invest money and time, it is risky and you will most likely lose your money then make any. You will basically be paying \$30 to knowledge you most likely already know. The Ebook also lacks detail and content, it took me less than 5 minutes to read the entire ebook.. You must ask yourself is \$30 worth reading something you could easily get from the Internet? Or if you already know these well known popular methods? Very disappointed. I won't be filing a dispute as I do not want to waste my time on scammers.

Overall score: 1/10 Poorly compiled, lack of content, not worth the money.

Note:

Here is an actual money making method that I have learnt from OP himself (not his ebook): Copy and paste content from the Internet, poorly compile it into a few pages, add a few low quality screenshots and sell it on HF = \$\$\$ Profit \$\$\$

1. How much time for setup?
2. Working in UK?
3. Requirements in total like PayPal verification etc.
4. I don't care about what kind of work it is, how much is required daily for a good income?
5. What kind of investments can be made?
6. Is this different from others, and if so, is this a method that can be removed/patched (if you know what I mean)?

Thanks, I'm highly considering purchasing this while I'm stuck at home.

Still thinking of buying, could you answer those questions for me too?

- 1) This is a money making method, right? How come it's in the beginner hacking section?
- 2) How much time is required for the initial setup?
- 3) How much time is required for the daily maintenance?
- 4) Working in US?

- 5) Any additional requirements such as a verified Paypal account or an eBay account or smth?
- 6) Is it whitehat and legal or greyhat/blackhat or even illegal? Any legal trouble that could occur?
- 7) What is the initial investment required, aside from the Ebook itself?

Thx

Hello @B FOR BADASS , sorry for bugging but I am new in the Marketplace scene. I am from Europe, to be exact , from Portugal. I was wondering if with this method you are able to get some profit like 50€ in a week or so.. I am not expecting big amounts, just some extra money. Are you able to PM me, and tell me what does this method involve, and if there are any additional payments besides getting the Ultimate pack?

Any answer will be appreciated. Thank you Sir! Have a nice day.

Hey, I am new to hackforums so I don't know how everything works. I purchased 20\$ worth of bitcoins to buy your premium package, now I was going to pay for this via "Shoppy" as that is where it sent me when I clicked on the link associated with your advertisement but then I saw the "buy premium package" link at the top of the thread which had me make a contract. I have no idea how contracts work and how I can get the bitcoins to you and you give the package to me. I cannot pm either.

I have the same question.

Jolienpri - May 18, 2019, 8:16 am

Devouch,

Most of the methods do need initial investments.

Living in a different country for example, lets say Uganda. does affect income, some methods wont work in there thus making it false the fact that it says its worlwide.

I seriously thought that this was a joke when I first started reading it.. I realised it was not, demanded a refund and the seller rejected even though in his texts he says if you purchase the ultimate edition you would get a full refund without questions being asked, turns out the seller says you need to wait 60 days and show proof that none of the methods worked.

Look, some methods might work but it is not worth it, unless you have a lot of free time, some money to invest and no job then maybe, still I guarantee you, you would never make 8k \$, maybe in a year, but not in a month, unless you invest a good amount of money & time.

Reality is the only one here making real money and doing the real method is the seller himself :)

Also, if you demand a refund and open a dispute, you will get -rep from the seller and his friends.

Take the risk and buy the product, but dont say later I havent warned you.

Reputed user lots of vouches looks awesome

EXCEPT it fundamentally does not make sense.

If u are already making 6 figures profit a summar (8000 +) why on earth are u trying to sell this for money ?

Logically any money u could make by selling this is nothing compared to what u are already making.

I for one don't buy this for even a second ; sorry :)

Not to be rude, but kind of agree here.

If you're already making that much there's no value in selling the method.

Hi, I can't PM you. I've few questions about the product before the purchase.

- 1 - Do I have to put some money in it? how much?
- 2 - Which is the average/maximum income I can get in the first month starting from zero? And in the first day/week?
- 3 - Which is the earning method/mechanism?
- 3 - Is the product still recent and properly working?
- 4 - Does it work worldwide?
- 5 - Please tell me more about the product, and what it is all about.

Looking forward for your reply.

Thanks

Hey,

i have a few questions. The first ones are these from another user a few posts ago. But i have some more.

1. Is there any further investment needed? If yes: how much and how much do you recommend?
2. how much time per day is required and how much earning is realistically after 1 month possible with the recommend amount of investment?
3. How does it actually make you money? It's not specifically said in here.
4. Can i do it from every country (worldwide)?
5. How can I get paid out?
6. Does this method include ebay or dropshipping?

im really interested in this and i think i will buy it after i got these questions answered.

I will leave a review after a few weeks using this method.

Thank you very much.

Hello im living in Turkey, this method working in Turkey?

When something looks too good to be true.....it usually is.

I don't want to sound pessimistic; however I am very realistic. What exactly makes this "make money online" scheme different than the other thousands online?

Every one of these ads promote the exact same thing: spend money up front, do little work, make money easy, fast, and with little effort.

What makes this stand out from others?

Hi please PM me with some details.

I am wondering what it is. I have some free parts of bitcoins, so maybe I am interested, but definitely I would not buy the cat in the bag.

Is that some quick suggestion like make copywriting while using google speech-to-text synthezator etc?

Is that working worldwide?

Is it legal?

Is that moral?

How much time you need to spend actively to earn around 100 USD?

Is this automated?

Why do you work in real life if you have this super methods?

Why don't you answering here in the topic?

Hey, does a investment need to be made inorder for this to work? super interested

UnLuckyClover - November 28, 2019, 1:49 pm

Hey im very interested in this but i have some questions.

Will this work in europe? Mainly Germany.

Wil this affect the income or methods?

Does it need an extra payment now or later down the road?

Thank you for your time.

RedNas - November 29, 2019, 6:38 am

Sounds interesting. I'd like some more info as well, such as additional required investments and whether or not this works from mainland Europe.

Cheers!

Hi OP. Your product looks solid, I'm new member on hackforum so I can't PM you. I've few questions about the product before the purchase.

- 1 - Will I have to continuously put money into it?
- 2 - Does it still work?
- 3 - How does this exactly work?
- 4 - Please tell me more about the product, and what it is all about.

Looking forward for your reply.
Thanks

I'm brand new here but just saw this thread and I'd have these exact questions.

I'd also like to know the daily time commitment. Or 'expected' time commitment. Please keep in mind saying 'depends' isn't even slightly helpful.

Daniel2060 - January 10, 2020, 1:59 pm

I am very interested, as the title says a 15-year-old was able to make money. I'm not expecting 8k in the summer, just any money is a great deal of help. But I checked the reviews, a lot of positive, but some negative. 1 caught my eye, saying it takes a large deal of time to do this method. And I am wondering if it takes consistent time, or just whenever we're able to do it? I am 17, I have a large amount of school and a baby to take care of. So I'm just wondering how difficult it will be to do this method if I was to purchase? (I should add, I am looking into the \$20 income stream premium. But also wondering if there's any way to pay with a \$20 amazon gift card? It has NOT been scratched off, so it is still new. If not, then if a visa card would do good (i can just exchange amazon for visa) Obviously I'm not asking any details for the method, as that wouldn't be necessary or allowed. Just a little idea if you can. Whenever you get the time to answer these questions, please and thank you for your time!

bought this once, its really filled with random stuff like ebay scamming . Basically if you dig around forums, u can find all these methods for free

this is why after that purchase, i stopped buying money making methods, they are unoriginal, copy pasted, reused, no quality whatsoever besides these clickbait titles, designs and other tricks to lure you into buying any of these . Thats why they sell these methods

you'd think leeching exists but when paid products are this bad already, what do u think free products offer. Ive yet to get anything for free thats actually beneficial

1. Method needs lot of time and effort.
2. The method itself it share common thought.
3. These method you can think by yourself i guarantee, but you choose to not do it because you think take too much time or effort.
4. There is no fast money or income you have to build your own tower.
5. I think he/she makes more money by selling these method than he/she do with the method.

I'm French so I didn't understand completely.
As many others said :

What does it consist of ?
Does it work in France ?
Is it legal ?
What is the difference between the premium and the ultimate purchase ?
Do I need to buy back your product if I want more money ?

I'm almost ready, I'm waiting for your signal.

I'm able to dedicate about 7 hours a day to this. How many weeks/months will it take to earn back my purchase?

Does it require any additional investment?

How long until it becomes saturated?

Thanks in advance

This isn't even good money. I know tons of teenagers that intern at FAANG tier companies (Two Sigma, Jane Street, literally dozens of companies) that make far more than 8k in a summer break. A good pay rate is about 50 an hour, so 40 hours a week for 16 weeks is 32K. Just lol @ how poverty 8k is.

Newbies FYI this crappy ebook is freely available on other forums since 2018 & whats the point of paying him 29.99\$

B FOR BADASS scammer what he does is

once you bought this crappy old eBook he will say thank you and send you download links after that he will not provide any support on HF or Discord but you will see him online but no replies to your questions but only he will attend to new buyers questions like he does in this thread

if you asked for a refund he will say "Refunds are issued 60 days from purchase in the refund cycle" which is not mention even under his refund warranty or anywhere before you buy this crap ebook. OR he will provide his other crappy products instead of a refund which is annoying

i would highly suggest you to open a dispute on paypal and never closed it because he will start to msg you soon after you open up a dispute on paypal and ask you to close it so he can refund DO NOT FALL for his words (which i did blindly and this scammer B FOR BADASS ignore me eveywhere and i couldn't reach him and i was totally helpless he still didnt reply to my dispute on HF thread <https://hackforums.net/showthread.php?tid=6088128> but i manage to reopen my closed paypal dispute escalate it and outcome came in my favor because B FOR BADASS real scammer I GOT REFUNDED BY PAYPAL)

I feel really SORRY for new buyers because you're buying something that is totally free online or very aged methods

IF ANYONE NEED HELP with opening up a dispute on paypal or if you have close your dispute believing this scammers words i will help you to open your close dispute within 24 hours and get escalate it right away

This scammer ignored me on HF and gave me

What is the nature of this? Reselling, dropshipping, blogging for advertisements?
What does a purchase include? How long does this take to set up?
How soon can we expect to see earnings?

I went through several pages on this post, and it seems like everyone is asking for info, but I haven't seen a post by one of your users saying that this was successful and showed earnings.

Hey there, can I get some more info please? I can't PM.

Specifically:

Are other countries supported (non US)?
How much time do you need to invest in it each day?
Do I need to invest further money into it?
What is the concept?
How many have you sold and is this saturated or how quickly can it be?
Is it currently being sold elsewhere on HF? Ie, is it the usual suspects being rattled off here which are too numerous to mention...

I can see you have a good rep and I hope this is legit. I've checked out some other people's methods and they are lame-ass as f**k. So I'm hoping to be pleasantly surprised here.

Hey, can you send me some more info as well please? What does it entail, how much of a time commitment does this take?
What is the nature of this? Reselling, dropshipping, blogging for advertisements?
What does a purchase include? How long does this take to set up?
How soon can we expect to see earnings?

I went through several pages on this post, and it seems like everyone is asking for info, but I haven't seen a post by one of your users saying that this was successful and showed earnings.

Can you PM me info please?

Hey, could you also send me the answers for these questions?

Does living in another country (non-US f.e. Germany / Denmark / Sweden / Spain), affect incomes?
Is it supported internationally?

Does this method require investment and/or additional payments in the methods itself?

i just bought your system

Order ID: a6e0255d-663e-4710-9783-bbf90d6ac60a

email: thebl#####der@gmail.com

the OP is a well known method provider. i saw some of his works distributed in the free section... that is why I bought this one for his previous ebooks are very profitable for me.

as expected, this one is the updated version and I am happy with the purchase.

The new update shows how knowledgeable the OP is in making money online. The ebooks itself are well presented and can be understood easily by a newbie like me.

the methods require work and time, but overall, it can generate passive income in the long run. all the methods can be scaled and be outsourced for much more bigger profits.

overall... i give this 9/10 ...

i definitely vouch for this and will recommend it to anyone.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
