RRRaptor - May 31, 2018, 3:24 pm

So I started my first online business on IG, and I've made my very first sale the next day!

\$211 GBP which is equivalent to \$370 AUD! I'm profiting \$325.

Pretty happy!!

Is it a service thing or you selling something via Insta?

Keep going brother.

Selling something via IG.

Thanks bro, appreciate it!

Ninja™ - May 31, 2018, 3:35 pm

Nice bro, you purchased shoutouts or use FB ads with Insta included or is it completely organic?

No shoutouts or Ads. Bought 10k followers, used a method I know to gain organic followers. I bought 10k just for the looks, and now it's genuinely working in my favor.

Nice bro.
Just one thing, if the product you sell is not upto \$300 mark then people won't hesitate to chargeback.
Telling this from past experience.

It's pretty hard to find my product on the internet but I appreciate the warning. Bank transfer is the main method of payment, PayPal will be rare though. Not dealing with their BS.

It seems you have most of the things figured out already.
Good luck on your journey.

Dropshipping but without Shopify. Yeah sold over DM's!. Only investment needed was purchasing the product after I was paid.

Speaking as somebody who's been making money off IG for years you should consider using Paypal as it's the most commonly used payment method.

Appreciate the comment. Unfortunately I'm not, but my niche can definitely be shifted into something that health/fitness people would definitely want. What's your Skype/Discord?
