Thread: [Know Any Chinese PUBG Hack Forums?](#)

Destroyer_anon - May 31, 2018, 10:20 pm

I have scoured the interwebz for a whole 20 minutes today and was unable to find any legitimate Chinese forums or websites that people advertise their hacks/cheats on. Something like EPVP or MPGH or UC for China.

These websites will be like the holy grail to me. If anybody knows of any, or could point me in the right direction, I would greatly appreciate it. <3

Thanks in advance!!

Do you play the mobile or the PC version of the game?

I may be able to put you in contact with a few, i have had a few request from many of them for us to sell on their site but i refuse to do it and don't really want to expand the userbase for pubg that we currently have, the Chinese/Korean playerbase are bad news anyway.

If i manage to find the convos i will pm you.
