Thread: [Attempting to recover my account.](#)

Ren And Stimpy - June 1, 2018, 8:19 am

I am attempting to recover my account at: (cant post links) /recovery.php

It seems after I fill in the forums I am redirected too a page stating:

Service Temporarily Unavailable

The server is temporarily unable to service your request due to maintenance downtime or capacity problems. Please try again later.

Additionally, a 503 Service Unavailable error was encountered while trying to use an ErrorDocument to handle the request.

Any other suggestions I can do to recover my account, at the moment.

Thank you guys!

Have you tried using contact form?

Ren And Stimpy - June 1, 2018, 8:23 am

Yes I used the contact form FIRST, but then I noticed that recovery.php is where I should go after reading a thread, with someone who had lost access to their account as well.

Ill just have to wait for the MODS/Omni to have time to solve/fix my issue

Thanks meow!

Can you try one more time at the recovery page?

<https://hackforums.net/recovery.php>

I will check and see if it goes through. Make sure that the captcha is filled.

xerotic@hacker.im is my XMPP.

Send me the info over there and I will try to fill in the form myself. If it doesn't work then we will have to wait for Omniscient to resolve any issues.
