Probably one of the nastiest sales thread ideas I've ever seen on this forum. Are you seriously selling pictures of feet to hf members? LOL.

Never thought I'd see this on hackforums

Edit: What does it take for a feet pic to be professional? Are you looking for a partner? I'll sell you pictures of my feet for \$5 and you can resell, I'll even shave them if you want

I am gonna need something to hold my girlfriends feet together like a sandwich so I can spit inbetween them and fuck her foot arch's, to finish it off I will have her wiggle her toes as I cover them in my nut
