Thread: [15 edit limit](#)

**Pronouncer** - June 3, 2018, 6:26 pm

Is there anyway to get around this?

I have a sales thread stickied for two weeks and guess who's being targeted and getting all their images and image hosts suspended, me.

I'm almost at 15 edits, and my images get removed every 2 days of so many different hosts, what can I do?

At HF we strive to retain quality content that's posted by members on HF. We currently limit the amount of post editing based on a number of criteria.

In any 60 day period there are limitations to the number of edits a post can have depending on your usergroup:

5 = Regular Members

10 = 3PIC

10 = L33t

15 = Ub3r

20 = R3kt

If the edited post is the first post of a sticky (paid or free) it has unlimited edits. If a post has a current Sales Tag it has a 20 edit limit.

We reserve the right to undo edits to any post.

Oh so every 60 days the number resets?  
Wait so as I'm Uber I get 15 edits, that becomes 20 because I got a sales tags?  
Then during sticky period I got unlimited.

Thank you, just let me know if my thought was correct and I can close the thread

Yeah with the sticky it should be unlimited. And with a sales tag it has 20.  
And yeah every 60 days it resets

Sales tags double your limit and and stickies have unlimited edits. The extra edits are allowed while the sales tag or sticky is active.

Alright thank you guys for that. Closing it now
