So for only 19,99\$ we get a method to x4 our investment? All whitehat and can be done multiple times?

Is this Paxful?

Please don't tell me this is about using Paxful.

I'll take a vouch copy if you have any left.

Received a vouch copy and here's my review.....

The method is well known around here. The guide itself is literally 2 short pages. Not worth \$19.99 or even \$1 imo. Yes you can make money but using that site to do that method will result in your account getting closed due to fraudulent cards.....
