Like many others here, I decided to join Squalo's mentorship after losing a lot of money on advertisement and I'm glad to say that it is currently working pretty well. I didn't think it would be possible to make that much in such a short time considering it took me close to a month to make my first sale when I was on my own.

Congrats!

I've worked alongside Squalo and can say when it comes to Facebook ads & conversion optimization, he is one of the best members you can turn to for mentorship.

Squalo is making people finally realize that Shopify is one of the most reliable ways to make consistent income online.
