Thread: [Instagram Username Claim Form](#)

cheesehead101 - June 4, 2018, 7:22 pm

Hello everyone!

I'll be selling the Instagram Username Claim Form!

- This method does not guarantee to get the username
- You can get inactive OG @'s.
- I'm only selling 2 access
- Price would start at \$200
- PM for more details
- BTC and PayPal payment only (Paypal is for high rep users only)
- This requires creativity and imagination, you'll be needing some documents.

T.O.S

1. Never ever leak the access form
2. Absolutely no refunds!
3. You are not allowed to sell this access to anyone!

"You'll be needing some documents."

LMFAO IS THIS THE LINK TO FILING A REPORT FOR A REGISTERED TRADEMARK?

That requires documents and proof of who you are.

Someone literally posted the same thing and was exposed that it's the link to file an infringement report.

There's is wired almost the exact same LOL!

Hell no boy this is a panel where you can submit verification requests, claim usernames, unban accounts, etc. I just did a google search and anyone can access that form that other guy was scamming y'all with.

The Host - June 5, 2018, 10:11 am

Access is private and if you know of a panel that you can publically submit @ changes through then you're not using a legit form.

Yes. Access is private as in admin abilities within. You can do verification requests, claim the og usernames, merge fb pages, unsuspend accounts, and a variety of other options. It's not limited to just username claims. Anyone else claiming to have "access" most likely can't prove it.

If true i dont see why anyone would sell it. as the things u claiming u can do with the form would earn u 10x the amount of money u asking for it.

theoldbrit - June 5, 2018, 2:56 pm

If you can give a vouch copy to see if it works, I'll gladly request a user and give feedback.

It's the access to it that is being sold.
