Thread: [Help to track a phone](#)

TerminateX - June 5, 2018, 4:13 am

Hi guys!

can anyone help me in finding phone actual location,
can u help me.

CyberError - June 5, 2018, 4:26 am

you can use my method to get access to phone gps live locations , you just need few min interaction with victim tho , or else 2 min physical interaction

^the above method doesnt work for Already Lost phone
go to google search for "find my phone " if its an android

I thought it worked? You can install an APK and then run it by sending a text from the website can't

you?

nothing can u tell me where u live
if u don't want to tell
no problem
