You need to sort out the problems in your rep first before asking questions.

But to answer it, the book is about focusing on 3 sectors on how you can make money. People. Services. Goods. I recommend you check it out because it's full of rich knowledge that anyone can use to get started with.

???Berlin??? - June 6, 2018, 7:53 am

any clue what all common methods does this not include

I don't want to go on about common methods. This isn't a common book. Books only focus on one avenue of making money (usually saturated anyway). This focuses on many ways you can make money. There are 3 sections in the book which delve in deep into sections about money making. The three sections are People. Services. Goods. No other book, in my experience, has ever taken this creative route to making money online. While your common book might be 4 pages long. We are at least 10x bigger than that. I suggest you check it out to see for yourself.

This. Probably the exact same methods but now he's got a mediocre thread design

Techius - June 6, 2018, 10:16 am

I want to know the basis on what you're basing these false allegations on. The book is about making money by focusing on 3 sectors: People. Services. Goods.

If you're going to talk shit, at least your information correct. This is a book with close to 50 pages of great information on how to make money.

Buy the book to see what's actually going on, or I will report your comments for mere sales trashing. There's no repackaging anything. These are new methods, which invertebrate snake-oil salesmen like yourself wouldn't know about, because you're too busy promoting lies rather than the facts like I am.

That's pretty easy. Before, you just claimed that this is repackaging of the other book. What are you talking about? This is an entirely different book. But you haven't paid for it, neither has your mate Fade. So you have no basis to say anything.

IF he did buy this book. I want to see the receipt. Because it's not showing up on the system.

Otherwise, be quiet. You don't know what you're talking about. You're just sales trashing.

No I didn't cunt. This is an entirely different book. You're claiming to know everything about this. How can you know everything about something you HAVEN'T even bought?

Does the method you bought have 43 pages?

You have made all these wild accusations about this method, without actually purchasing it. I'm not going to submit to your demands, because you're incapable of handling the truth. This is not a vouch

I asked the author for a copy of the book, and there are several methods that aren't ehowning, and bustabit strategies. To say the book is just bustabit, and ehowning methods is simply a lie.

This is a not a positive or negative review of the book do not see it as one.

There can be many reasons to that including

1. Private forums
2. HF PM's
3. Fake date

Who said I have a copy? I could have gotten screenshots of someone, you couldve given out vouch copies to someone who made it public on Google, I could have used bugs to obtain a copy. Either way you have no proof that 1. The copy is on my system 2. I stole a copy 3. O obtained a copy, for all you know it could be on a RDP which orginally got both the methods. You are unable to prove any allegations. My dispute is valid we both know that. The fact your scripts are copy and pasted. The fact you avoid the question to why your corrected script is not in the ebook. The fact you missold so many people you complain when someone makes a joke about Doxing you and plead innocent. I may not be held responsible for the actions of other users who see this. Just know someone will take it into their own hands to sort you out. That's the way HF works. Have a bad rep and bad things happen.

When you sort out the open scam report you can have your \$25 xD and I don't owe you anything that's not how HF works. I made a dispute as the claimant meaning you owe me something as you haven't resolved why your ebook is copy and pasted, why you stole public scripts, why you lied about the contents of your ebook, why you have 20 filler pages which I proved

and why do i owe you anything when both your ebooks contain stolen content. I think you owe stacy some money dont you?

Techius - June 8, 2018, 6:14 am

Oh. So now you admit to owning my eBook. Where's my \$24.99?

If I don't get it, I will open a deal dispute on you.

The cost of this book will rise by 50% for both the \$24.99 and \$34.99 version in the next 24 hours!

Purchase now before it goes up.

Techius - June 10, 2018, 11:05 pm

I have decided to price this book at \$24.99 and \$34.99 for the next 24 hours! Be sure to purchase now to buy now.

If you're buying this, you should contact me so I can sort out the B Rating as well. This is a much fairer (and accurate) system than reps -- which can be abused by people in groups.
