Thread: [Upgrading 50x Normal Members To L33T Contest Over \\$1000 Giveaway](#)

Kawen - June 6, 2018, 2:41 pm

Hello hackforums, I recently hosted a contest where I gave away x10 brony awards to 10 members. Well today I have decided I want to upgrade 50x normal members to L33t.

This contest is for 50 L33t upgrades.

To enter simply post below. In your post you should say why you want to be upgraded to L33t and how you plan to help HF in the future.

The members [Steve](#) and [Xerotic](#) will each choose 25 of the winners. The contest will end in one week!

(The contest ends on June 14th, 2018)

?heshire - June 6, 2018, 2:43 pm

Sounds like an awesome giveaway Kawen! Look forward to seeing all the new upgraded members roaming the forums.

Eccy - June 6, 2018, 2:43 pm

Nice giveaway mate! Thanks for doing this, best of luck to all entries.

Stuni - June 6, 2018, 2:44 pm

I wish there was something for l33t to ub3r . But now normal members have a great chance to hit l33t. ALL THE BEST

crispy - June 6, 2018, 2:49 pm

I would appreciate this a lot! I plan to help HF by helping people with iOS development, React development, building APIs, working with DevOps (Docker, Travis, Circle, Kubernetes), and trying to dig up what I got to provide services to the members. I also have some knowledge in blockchain dev (PoW) that I could help people with. I'll try to be more active with programming questions and making tech concepts that seem scary, friendly to everyone :)

Outlaw. - June 6, 2018, 2:55 pm

LMK if you're willing to give out an 3p1c membership, I'd be glad to participate for it ?

Props to OP for the giveaway! Good luck to erryone!

Err0rr - June 6, 2018, 4:39 pm

I would love to upgrade, because I stay on HF and trying to learn new things all the time. I also don't come across crypto exchanges often, because I've seen a lot of scamming going on and I don't really have the money for upgrades & exchanges so that I can upgrade myself !

I wish whatever i know about this HF world just spread it free of cost

That i think for HF

Fear - June 6, 2018, 4:39 pm

I sometimes give away some stuff here but mainly I would like to have leet (or epic) for the private message space because I always need to delete my PMs and sometimes I lose something important..

Tesla - June 6, 2018, 4:42 pm

Kawen is honestly the greatest man on earth.

SIM-3558566 - June 6, 2018, 4:49 pm

Awesome giveaway. Appreciate it! One reason I'd like L33T is to increase my inbox size so I can stop having to delete message ? I also would post in the primary sellers section and be able to rep people for who I have transacted with.

Wake - June 6, 2018, 5:07 pm

Another great giveaway from Kawen. Thank's for giving back to the community.

Well if you get L33t, your 1st move to get more respect is to change your nickname ahaha

Edit : I'd love a ep1c giveaway too!

Killer - June 6, 2018, 5:20 pm

Hey man!

I'd like to get upgraded to L33t because being new on this forum is tough, most people don't trust new members and that makes for slow growth of my HF account.

But, as you yourself are a perfect example of, with L33t anyone can come a long way, as long as you are willing to also invest the time in it.

And i want to help out people that don't really know that much about hacking and marketing on this forum some day!

Anyway thanks for doing this giveaway, i hope i win, and to all the others GOODLUCK!

Vyxn - June 6, 2018, 5:29 pm

Thanks for the giveaway, Omni.

Fours4 - June 6, 2018, 7:10 pm

I would like to win this contest because I recently joined HF, and feel it is a good community that I plan to be apart of for a long time, all of my posts (not so many right now) are all high quality and I plan to help other members here once I have built a bit more reputation, props on you for doing this also.

Very nice contest. If it's possible to nominate others, I would like to nominate "clutcher".

I know him personally irl, he's pretty HQ though inactive on this forum. I hope he'll be more active if he gets upgraded.

rizaiciux - June 6, 2018, 11:34 pm

Thank You for the giveaway;

I would want to win this because over time I have been introduced to a new part of internet with the help of HF. Little by little I will give back to the community with my current skills, including audio/video edit, documents/pdf's edit-fotocopy, some simple C program projects, autocad drawings. I tend to lurk around service requests/offers section nowadays and I believe the upgrade would serve me well in getting more gigs to perform

SuicidelsAnOption - June 7, 2018, 4:24 am

Hi there,

My name is Dodgecoin a normal fag. I've been on this forum for a while just checking out for stuff. I am not know as I don't post that often. But if I would become a L33T I would love to be alot more active.

And post tips and tricks on how to make easy money. That would work for everybody.

I have a lot of easy money making methods that I would love to release to this beautiful community. I've been into hacking/cracking/carding/social engineering for a while now and I am proud to say that I am pretty successful in my own ways.

I've been doing this for almost 5 years now. And I am still interested in it. I've been making a couple thousand dollars. But didn't really have time to purchase anything from here.

I recently bought some methods and they work great. And I would love to release my own methods. An example is on how to get private file .exe|.pdf|.rar|.apk|.txt and the list goes on and on.

Kind regards,
Dodgecoin (I know I spelled it wrong lol)

Tsachev - June 7, 2018, 4:56 am

Hey,
I've had this account for a long time and I spent most of my time in the lounge and cryptography section, I recently came back as I had problems IRL. I would contribute way more if I got leet as it will motivate me and also +rep all the nice people that are doing good just like you :) , well that's it from me :) GOOD LUCK to everyone and it's really nice of you doing this man.

sAVITAR - June 7, 2018, 5:42 am

nice giveaway again, you're very nice lol

Lowen - June 7, 2018, 5:44 am

I cannot thank you enough for hosting this giveaway.

I only just joined the forum and for the future I will be looking to host some giveaways like these.

Thank you, Kawen.

- Lowen.

MicroCode™ - June 7, 2018, 5:52 am

Well I am planning to do some free releases soon, so it would be very handy to get some of the posting limitations removed.

Also, access to HF IM XMPP would be useful.

?elevison - June 7, 2018, 6:10 am

Wow I just joined this site just now because I wanted to read another thread somewhere in the computer section. Is this for real? L33t would be awesome for me. I would be able to do so many new features! That would be dope.

Also, in the future I will remember this contest. I would think wow that was such a great thing to do, and it would inspire me really. I would be literally the best guy ever. I've got to give it to you Kawen you're awesome, you're nice, you're kind, you give back to the community and you do great things.

I am really inspired. I would post tutorials to help new members. In the future I want to donate, help, and bring positivity and joy to the forum and do everything which is good. Kawen you rock dude.

Great Eight - June 7, 2018, 9:13 am

I want to win this because if I win I could further improve my posts, I would be able to give rep, close/open thread, have a signature, upload avatar, ect. and I overall would be an enhanced member with more features to help and contribute to others. I believe quality is great and that is why I will always try my best to be high quality, use proper grammar, and contribute as much as I can. The features would basically make it an even more better experience than it is now. This is why I

would want to win. In the future I would make contests, I would give back in so many ways. I'd contribute every chance that I get, I will be polite and high quality. I plan to own at least three services here, paid and free. I'd host contests to give back to the community so that no contest giver should ever be down in vain and everyone has a chance to win! Contests and giving back will be the cool thing to do, like it is now :)

Thank you,

Aplomb

Potluck - June 7, 2018, 9:19 am

I would like to be L33t because I think it would be cool to finally have more PM space I've been on here almost a year and I've come to love the site and plan on going nowhere I wish I could afford L33t but all my money goes towards my kid.

daddybitch - June 7, 2018, 11:10 am

Hey, I would like to be upgraded to L33T.

I'm pretty new here but yeah, This site is super cool and I want to get involved in more sections and sell/offer some of my services but I don't have the status to post in certain sections. I love engaging in conversations and try and give my best most detailed responses to each post I make. I feel like I'd be a good investment for the site As a whole. I've made a few transactions so far that went great, I try to give good honest replies to every thread I comment in. Check out some of my posts so far! That's why I would like to be upgraded.

How I could help?

I know a lot of hackery type of things such as Sentry MBA, RATting and so on. I would like to post tutorials and so on to help newer people that are on the forums. I have also started to get back into sentry mba, which is something that allows you to crack into accounts and I would love to make a way for people to grab a netflix account or some sort of premium account someone would be interested in. But yeah thats me.

Reason: I try to get L33t to be able to Edit my Posts up to 30 Days, since i work on several User Defined Functions that will be Published in the Coding Sections. If i only can edit my posts for 2 Days then i need to Post my newer Changes always as a new post. Aussie - June 8, 2018, 9:01 pm

Would love to be l33t, because I've been lurking since 2011, finally signed up in 2013 and have

made many contributions to the community already! It would just be awesomee.

Arkane21 - June 8, 2018, 11:01 pm

Hi,

I think I deserve to win an upgrade since I try my best and continue to try to keep my posts high quality and free of grammatical errors. I also purchase products and services from the buyers market which I consider to be an investment in the HF market as a whole. Additionally, I actively report and will continue to report threads and posts that do not follow HF guidelines to improve the overall community/atmosphere. If selected to be upgraded as L33T I will be able to further contribute to the forums by warning users of sketchy transactions with neutral rep and giving a +1 to those who I believe are trustworthy or deserve it for a specific reason. Additionally, being upgraded allows you to access certain sections that are closed off to non-upgraded members. I believe I can make positive contributions in these sections in the future if I am selected to be upgraded by Admin Xerox or Mentor Steve.

Thank you for hosting this contest,

Arkane21

Yin Yang - June 8, 2018, 11:13 pm

Damn not even I have that l33t status

NullSafe - June 9, 2018, 2:18 am

Figured I'd "throw my hat into the ring" despite how many people have already applied but here's how I plan to help HackForums:

- 1) Learning resources found on the DeepWeb and Clearnet that help member become more informed.
- 2) Programs that assist with everything from anti-forensics to data scraping.
- 3) Giving detailed answers to questions.
- 4) Analysing malware, providing solutions and creating awareness on any suspicious files uploaded to HackForums.
- 5) Releasing my own Malware (with source) for the purpose of improvement.

If I don't get this I'll be find and I'll still do the above regardless, would just be cool to be l33t.

Hi I'm Miami. I have a bit of knowledge in ddos, getting website and user info and that stuff. Would call myself a grey hat like to help people stir up some trouble and do some myself [within good reasoning] and help out those that are being attacked for no reason.

I have an old account which was compromised three years ago, someone didn't exactly "hack" it as in make rage posts and such but one day my pw was changed and as hf usually just auto logs and i used my user name i forgot the email. So I'm starting fresh here.

As I can't post links the account name was Super Gogeta.

I contributed a DDOS guide, a emmy giveaway, a 35 dollar giveaway, a 3 dollar giveaway and a 20 free youtube sub giveaway.

I would like to continue to give back to the community however I can. Thanks for considering me here.
