\$30 for Elite Sale

UPDATED TO BYPASS 01/08/2018 BLOCKS

Real customer feedback:

Spoiler [\(Click to View\)](#)

(Jul 7, 2018 09:11 PM)-Micro- Wrote: [\[CITE\]](#) After using the program a few times, I'm proud to be a customer.

Amazing support, and the tool works great!

One "thing" that wasn't explained on the thread, is that you need HQ Private/Payed Proxies in order to get alot of views [50+]

Apart from that, Amazing purchase and for sure worth it!

My rating would be 8/10

(Jul 16, 2018 06:21 AM)CapCrunch Wrote: [\[CITE\]](#) huge vouch on this program all function works as advertised, the devs and support is active if the features that you need is listed here you wont be disappointed after purchase. if you want more than 100 viewers you will need a good dedicated paid proxy on it but the support in discord is active and will help you out with questions.

(Jul 24, 2018 06:24 PM)??????? Wrote: [\[CITE\]](#) I would like to leave a vouch!

O.P. Is legit. Did the sale.

I didnt have the right requirements for the software, but O.P. Was so kind to refund. (My bad O.P.)

Thanks for the service! And i will be a costumer when i change my setup!

(Jul 26, 2018 06:13 PM)ewakr Wrote: [\[CITE\]](#) The viewbot I purchased has got to be the most worth it purchase I have made yet, it is so simple to set up, and so easy to use. You have the option to use paid or free proxies based on how you want your bot to scale. I love it!! And the support is very quick to respond, I would completely recommend purchasing it!

Looks like it works ;)

GrandpaSherman - June 8, 2018, 2:26 pm

It looks very Baba. I like that, and fuck I want to purchase this.

What are the speeds of the chatters? Like can I set the minimum to 1ms and maximum to 2ms or is there a set delay

Pol.ar - June 8, 2018, 3:48 pm

what is this? a viewbot im confused.

Ice. - June 8, 2018, 8:22 pm

chatters have been capped to minimum 10 seconds so it cannot be used to spam / abuse chats

Either way, babatools hasn't had updates since 2016 IF THEN... and since they've only added a crypto miner

and now only 3 or so of their free tools still work

--

I don't like the 10 second chat delay that's lame. Is there a maximum on how many views you can send? Or does it keep refreshing threads when they die?

If we don't limit it u risk getting ip banned for 24 hours from their IRC chat.

1000 is the maximum threads u can do, each thread is connected to 1 proxy, in the list

You have to put your own word list and your own accounts

LegendaryFox - July 15, 2018, 8:44 am

I noticed that the video presented above (which is a bit old) that you can only run 1000 views per session and can only open 2 session. Is still the case? As I can easily get 26k proxies but due to the limitation shown in the video the most I could use is 2k which would give me like 50 views or slightly more (maybe 70).

Is this still the case?

1000 threads in 1 instance, open unlimited sessions now (1.0.3 updated to remove this block) having 26k proxies does not mean u can get 26k viewers because we don't know which ones are blocked or dead

Thanks, yeah sorry should have clarified that. The reason I brought it up is for that exact reason, as you only get like 1 viewer out of 30 proxys due to block etc. Thereby the more threads /session we can use the better ;). If the limit was 2000 threads you would be limited heavily at 2000proxies which would be around 50-100 viewers :D.

Thanks for your reply, I'll definitely look into this on my next paycheck.

huge vouch on this program all function works as advertised, the devs and support is active if the features that you need is listed here you wont be disappointed after purchase. if you want more than 100 viewers you will need a good dedicated paid proxy on it but the support in discord is active and will help you out with questions.

Version 1.04 is out and packed with new features included but not limited to the following:

Proxy Scraper + Checker

Low Power/Low CPU usage mode

High Power/Somewhat higher CPU usage

Rotating Proxies Support

Pics from real satisfied customers:

iRtehBest - July 21, 2018, 10:53 am

How many max viewers can you get with this?

DOes it depend on how many good proxies you use?

max viewers u get loads, people have got 1000+ viewers with this bot but they are paid / private proxies

you need good proxies to get this much.

proxy scraper available in the bot are public proxies can get u like 50+

hailovethat - July 21, 2018, 2:18 pm

Very interested in buying, will you pm with purchase link?

Ice. - July 21, 2018, 11:19 pm

Official 1.0.4 new updates / release notes:

- Full Power option

If you have unlimited resources such as cpu / network speed and want to get the most viewers out of the tool.

- Low Power option

If you have low resources such as low end cpu / network speed and want to not effect ur streaming quality and bot urself some viewers.

- rotate proxy option

New proxy type support, low cpu / network usage can get you to 1000 viewers with only 56 proxies (real testing results), these proxies are expensive and work the best for high view count.

- list connector

Listbox added which displays successful and unsuccessful accounts connected to ur channel to fake the view list, useful to see which account oaths are not working and are working.

- new format chooser option for importing accounts in list connector and chatter function

Tool supports -

User:key

User:oauth:key

User:password:oauth:key

Any of these formats can be used in our tool.

- real-time proxy checker

When you are sending fake viewers, working proxies will be listed separately for u to save and to reuse/share with others, this is useful so u are not wasting bandwidth on dead / blocked proxies, similar to a normal proxy checker but this has more chances of getting u the unblocked proxies because it is checking directly against the source the viewbot uses.

- chatter

hype / raid chatbox limit from 10 sec will be reduced to 1 sec, use this amount at ur own risk.

- chatter

Timer will be changed from milliseconds to seconds for ease of use.

This has been a massive update and a huge step for us, I would like to personally thank all of our loyal and satisfied customers

Using the past versions the most views obtained is 2000+ with paid and high investment, our free proxies we provide get you 50-100ish

SSL proxies are required.

100% recommend to anyone trying to boost their viewers. I use free proxies and always get an

average of around 50 viewers (I could get more if I added more proxies). It's super easy to use and the devs are really active and always willing to help. Best money I've ever spent.
