I find the play time kinda weird? so after doing the math for the first account it would equal out to 24.075 years of play time according to steamdb. the weird thing is it isn't a type (minutes) because if it was minutes it would equal to 3.5k hours which is less than what the account have in csgo alone. good luck with sales

So the OG email comes with this?

Not bad, but not worth 800\$.

N3k4T - September 11, 2018, 2:55 am

It is worth even more, so if it is worth 800 €.

To pass level 324 it takes 500/600 €.
With 1,100 games? Minimum 400 €.
So if it's worth the price.
I sold one at 850 and he had less level.
So I know when it's worth the price.
All come with the account, original email.

Not looking to saletrash/advertise or anything, just trying to get to a point:
this is a hackforum, there are similiar accounts I'm selling for 100-200-300\$, what's the point of
buying this one for 800\$?

Either way: GLWS

Not really. 1.1k shitty games isnt worth much, and the level isnt worth the price you say it is

Cool story.

I know the prices.

I already sold an account lvl 220,
1200 Games,

So do not pollute my thread, thank you.
