Thread: [Simple File Encrypt/Decrypter](#)

SlowMehMo - June 8, 2018, 7:46 pm

Just a simple encrypter and decrypter tool i made.

I put it here in case someone finds it useful, do not forget to save your password, recommended to keep important files unencrypted on a offline disk

[Download Here](#)

Yes C#, If i was more confident i would of used C++ but since i code monstrous trash in C++ i will get better before i go releasing any of that lol

TerminallyIII - June 9, 2018, 6:04 pm

Thanks for replying and damn right you should get better at C++ before releasing any tools made using it xD

ihateitunes - June 9, 2018, 7:12 pm

windows defender blocks it..

SlowMehMo - June 19, 2018, 11:43 am

smoke has said he will -neg rep me every day and place a DWC on all my posts, pathetic, but just letting you know.

Why did he say that?

int - June 19, 2018, 12:21 pm

Is your name supposed to be a play on BahNahNah

SlowMehMo - June 19, 2018, 12:27 pm

No, but it should be, im slow at doing things and the rest is just mumbo jumbo

anonymousboss - July 7, 2018, 2:05 am

Which form of encryption does this tool use
AES? Xor? Polymorphic stairs? Base64?

SlowMehMo - August 4, 2018, 5:22 am

a crappy one, i think it may have been Base64 but im making a better one, im going to make like a
random toolkit with bunch of extra tools and stuff in it when i get a chance.
