Exchange amount 150\$ for his 200\$ AGC.

Gift Card balance and its redeemed history has been removed from my Amazon account i am contacting with amazon now to see why it happens. I am sure he has sold me stolen or carded card. Will post here once i talk to Amazon and on PP i already open dispute please help me what else i can do.

I called the Amazon they are saying it was purchased from stolen card from the account names George and he had complaint Amazon thats why they remove my balance.

Anyone can help me to win this in my favoure? i can pay you for helping me.

Update: i called Paypal and he is going to get fucked now.

I am lucky i didn't used that balance else my account might get closed. Also regarding the money luckily i paid him with PP he was asking BTC but because of his rep i go with PP. I called PP and explain them what happened and they did refund my money.

He is fucking shit

Really a sad thing when a user gets themselves into a sticky situation like this and they have no funds to get themselves out.
