ENTIS DESIGNS

Hello,

I'm teaching myself to develop themes for MyBB. I am currently looking for some projects to work on to add to my Portfolio, as well as to help me learn more. Although, I cannot work for free either unfortunately due to a few reasons so I'll be taking some jobs.

If you're interested, please let me know. You can contact me [Here](#) by PM for more contact info.

Here's an Example design (What I started Yesterday, just messing around to see what I can come up with. It's a Gaming theme I call "Advance Gaming Theme" as I plan on making it very HQ, and offer a lot for a theme. I'll eventually sell it, or use it myself once I finish it.)

View Example: <https://imgur.com/a/YmpTJv0>

I don't want to add on to the super basic themes already out there though so, it may not be super professional but I won't give you some 2010 trash design either. \$25 minimum for me to begin, \$50 is not the maximum I'll be charging or willing to take (in general) but as of right now all that I'll be charging.

Will Update with company logo, and official website link once created. Entis Designs is a single man Designing Company for Learning Purposes. I reserve the right to deny any client, as well as to resell a design if payment is charged back or not fulfilled. All custom themes will only be sold once to the requester. Entis Designs does not currently provide Responsive Themes.
