Thread: [Looking for a crypter that can bypass run time and scan time](#)

Vloner - June 11, 2018, 5:55 pm

I'll pay up to 100 USD for a crypter that can do this. Thanks

int - June 12, 2018, 5:32 pm

This question is asked literally every week. Barely any crypters are runtime fud.

inyourmemory - June 13, 2018, 5:30 pm

False, i know lot of crypters that are runtime FUD
however people here have 5\$ budget and dont know where to look

I already know OP is asking on hf.

Path - June 13, 2018, 11:10 pm

I can use a personal method to make it fud, can get it to 0/21, worst case 1 detection but will be a once use stub and so completely fud unless distributed

ThatCastle - June 14, 2018, 1:24 am

.net or native?
.Net is easier than native but isnt rly a problem to get fud.
write me on skype: GeoZeto

SIM-1589588 - June 14, 2018, 1:29 am

You can get a crypt for 20-30\$ but not a good crypter in that price.

inyourmemory - June 14, 2018, 1:49 am

I have literally seen 1 RT/ST FUD crypter on hf, which ended up being slotted and private later.

inyourmemory - June 14, 2018, 6:51 am

why would they need to be stickied? implying that sticky somehow proves crypters bypass?

BananaPancake - June 14, 2018, 8:35 am

Any FUD .net (4.0) supported crypters you recommend?

int - June 14, 2018, 12:26 pm

It doesn't, it just makes them more popular

Path - June 14, 2018, 12:47 pm

(Jun 14, 2018 12:26 PM)Jukeboxhook Wrote: [\[CITE\]](#) It doesn't, it just makes them more popular that's the idea, get them more sales as they are always at the top of the page

Vloner - February 23, 2019, 8:17 am

Anybody know any similar crypters in 2019?

V3xD - February 23, 2019, 12:03 pm

i have released many for free my latest one is at
