whats the rule on gang rep?  
same or is it now allowed?

Giving the fact that its impact is not the same anymore, I don't see this being an issue..

This is why this is a brilliant update. This gang fuckery will not impact people trying to conduct business.

No rules against it as of now.

We have no rules regarding that. Reputation now is seen as feedback, as it should be been from the start. It has no impact on the marketplace business.
