Hack Forums Ficons Evolved to Sprites

Along with the many other performance and site improvements being made through the collaboration of [Omniscient](#) and [Xerotic](#), the newest change comes in the form of converting hundreds of Ficons to a single image and a CSS page that controls them which can be found here: <https://hackforums.net/cache/themes/theme10/ficon.css>

The image being used can be seen here: https://hackforums.net/uploads/ficons/ficon_sprite.png

Those who have issues seeing the icons correctly, simply press Ctrl-F5 on the [Hack Forums](#) home page to fix the problem.

P.S. The recent changes will be in Edition 396

Interview

Unfortunately, I was unable to get an interview done for this edition. Please expect one for next week's Edition 396.

Experimental Edition

Like last edition, this edition will be the core sections only. Let us know what you think of these short editions! Edition 396 will return back to normal.

Crystallize. - June 14, 2018, 6:45 pm
