Thread: [Theocritus' eBook Review for "The God Of Snapchat E-Whoring" by Caligio](#)

Theocritus - June 14, 2018, 4:11 pm

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your eBook.

Product: [The God Of Snapchat E-Whoring I 1-on-1 mentoring](#) by "Caligio"

This eBook consists of 1 main method and a few bonus methods, (depending on the package you purchase), totaling 29 pages.

Before I get into the eBook itself I will talk a bit about the other sides of this eBook.

First of all, I was given the "godly" edition of this eBook, which is the most expensive one and the one that contains all the bonus content available. This edition does include a few packs as well, but I will not be reviewing those today. The godly edition consists of the main eBook, which is included in all the editions and consists of 21 pages, as well as an 8-page eBook with some bonus methods. This 8-page bonus eBook is only for the advanced and godly editions as far as I understood.

Now the grammar in this eBook is nothing at all to complain about. The structure is nice, I saw very few grammatical errors, and the entire eBook just feels very good and high quality throughout.

The eBook also contains a "table of contents" which is great for seeing everything included and very practical if you want to reread a specific section later on.

OP has gone with a purple coloring for the eBook background, and I think it fits well enough. Overall, from a design standpoint this eBook gets very high remarks from me.

Firstly, I will cover the main eBook and its contents, before moving onto the bonus methods later on.

To me this eBook covers everything from A to Z when it comes to snapchat e-whoring. The eBook is very well structured with chapters covering more or less everything. From how to set up your e-whore girl background story, name, age, to covering a wide array of traffic sources, how to take payment, you name it.

This eBook more or less has it all in my opinion. Now I haven't been in the e-whore game for a while myself, but I can safely say I learned a good amount of very practical things from this eBook. Below I will quickly sum up some of the things mentioned in the eBook.

You are taught how to: Set up Snapchat on your phone or PC for e-whoring.

Handle different problems you might face with customers.

Find a wide selection of traffic, ranging from saturated sites to many other less saturated sources.

Advertise and maximize profit from your Snapchat e-whore.

Use varying techniques on how to handle customers, to convince them to buy etc.

Create your own packs online

& more

Not only are you given a 21 page long, detailed and high-quality eBook, OP has also included multiple short videos to show live how to do certain things taught in the eBook.

This is the first time I have encountered video tutorials in more or less any eBook package I have ever seen on HF, and at the very least the first one in the e-whore genre. Just that OP cared enough to make these video tutorials and put them in shows he has more dedication to making a

well-rounded and high-quality eBook than most other sellers on here. Just reading through this main eBook again I see just how much information is propped in here. 21 pages of information is enough almost no matter how you slice it, but this eBook has managed to really maximize the value of each & every page in my opinion.

If you want more information about this main eBook you will have to buy it I'm afraid, but I don't think you will regret that decision at all ?

Now onto the bonus methods. The bonus eBook consists of 8 pages and a few different methods. These bonus methods are centered around everything from automation, to maximizing profits even more. You are shown how you can potentially expand packs you are already using, how you can increase traffic to your snapchat(s), and more.

You are also shown how you can safely transfer money from an e-whore PayPal to your main PayPal. There are also some other bonuses explaining how you can make some extra money using a website or two in tandem with your Snapchat.

Some of these bonuses are only for the godly edition, but some are also for the "advanced" edition, as far as I saw anyhow. OP also claims he will update this eBook multiple times, and at this point I would imagine he already has an update or two out since I was given this review copy a while back. If the updates are anything like the content I've already seen here, then I would be very happy indeed.

OP even adds a size chart for breast sizes. I mean what is not included here.. it's a 10/10 for me.

Personally, I would say this is probably the best Snapchat e-whore eBook I have seen so far, and I think anyone can make bank with it if they are willing to put in a little effort and time.

Final Thoughts

To OP I would suggest you iron out the very few grammatical errors here and there. Other than that I would just like to say, well done on your eBook, it beams of quality in my opinion ?

Since this is in the e-whoring genre it is already a fairly niche eBook. But if you are willing and fine with doing e-whoring, then this eBook will no doubt get you your money back, as well as potentially much, much more with some time and effort. I think this eBook will have the most value to people just starting out with e-whoring, but I think even a seasoned pro can learn some very nice tips and tricks from this. A worthwhile pickup almost no matter I would say, if you are looking for an e-whore eBook that is.

Thank you Theocrtius!

It was totally worth it to wait exactly 40 days for the review, appreciate it!

I highly suggest everyone that has a legit product to use Theo's service due to him being almost the only one that writes more than 3 sentences.

-Caligio ?

-Caligio ?

Thank you for the kind words, and once again apologies about the very long wait
