Thread: [\[iOS/Android\] Free Premium Apps and Modded Games \(No Jailbreak/Root\)](#)

RollinThatDice - June 14, 2018, 5:29 pm

This may not be news to all but I found an app you can download on iPhones that is similar to Cydia without jailbreaking! I don't have an iPhone but I tested it with my father's iPhone and downloaded a modded YouTube app that gives you YouTube Red features. It also works perfectly on my Galaxy Note 8.
