i did this all in 10 days from one guy, my first payment from him was on the 5th of this month still taking payments now, decided id make a post today. Reason theirs no pictures is because honestly theres lots of emails from amazon / pay-pal and its kinda hard to find the eWhored ones and the legits ones i buy since there all mixed up but if anyone wants proof id be happy to take the time and screen shot them all just let me know but anyways thought this was pretty cool and yeah :p lol :P have a good night after reading oh yeah rep for rep :p

edit: i did covert this to my primary currency which is cad
