Thread: [*Program* Private Proxy Scraper ==> \\$14.99 <== \[100% PRIVATE\]](#)

SuicidelsAnOption - June 15, 2018, 11:11 am

Hi there,

Dodgecoin back with another product for sale.

Description:

This is a private proxy scraper.

It can scrape up to 10k everytime you open the program.

There are 2 .exe files one for HTTP proxies and sock 4/5 proxies.

These proxies are working best for Cracking, Anonymity, Hacking DDOSING etc

You can make a VPN if you have the knowledge too.

OR maybe send traffic to a site.

Or you can use them to watch porn which I always do.

T.O.S

All sales are final!

No refunds

No chargebacks (Actions will be taken if a chargeback happens)

I can change the Terms Of Service whenever and however I want.

No sharing.

No leaking.

I have all your information when purchased so be careful with what you do!

You got to agree on the Terms Of Service else fuck off.

PRICE IS \$14.99 WHICH IS A GOOD PRICE FOR THIS PRODUCT

Picture Proof of the program:

Are you giving vouch copies out right now? Thank you.

Frost - June 15, 2018, 11:50 am

A picture of the tool it would be useful so we can know it's legit ;)

I used this tool yesterday, and it actually did provide good proxies for my use (creating accounts for certain sites) so I highly recommend it.

spudhead77 - June 16, 2018, 4:06 pm

Bought, the link to download dosen't work

SuicidelsAnOption - June 16, 2018, 9:36 pm

<https://selly.gg/p/570b678c>

Try that :)

If you get any errors while paying or did not receive. Just pm me :)

GrandpaSherman - June 16, 2018, 9:43 pm

Can you send me a http list that it scrapes so I can see the quality?

SuicidelsAnOption - June 16, 2018, 9:44 pm

Already been vouched ^^

GrandpaSherman - June 16, 2018, 9:45 pm

Welp that was the easiest \$15 you lost, glws

SuicidelsAnOption - June 17, 2018, 12:29 am

Hi there,

Just here to bump, trying to get some sales.

See you soon

- Dodgecoin

This is not possible and is something you shouldn't say.

it.mn - August 23, 2018, 3:36 am

The program does not work ..I tried it but it does not work

Are there any instructions or a way to explain how to run the program?

pm pls
