Thread: [E-Whored \\$2,444 in 7 days with Kik only](#)

Lightz. - June 15, 2018, 9:48 pm

Managed to almost break the \$2,500 barrier from June 4-June 10 this past week doing only Kik with a method I came up with. Best week I've had ever, hoping to fall in the 8k-10k range this month if I can keep it up.

People that think it's dead aren't putting their own twist on it.

They're doing the same shit that literally everybody else is doing and wonder why the fuck they're making peanuts.

Nice earnings chief.

What's the winning thing in your method? You have a good/unsaturated/unique traffic source or you SE?
