Thread: [SMS Verification/Virtual mobile phone number](#)

Thiamno - June 16, 2018, 6:35 am

Hi,

I need to verify several types of accounts, namely Facebook, Google and Microsoft. I can't do it with free online services. I spent several hours trying every possible free service but of course those numbers are all blacklisted by major companies such as Facebook, Google or Microsoft.

That's why I'm looking for either: Names of premium services offering virtual phone numbers known for working with Facebook/Google/Microsoft

A quick verification service provided by an HF member. I will need verifications regularly.

I can pay in any cryptocurrecny (Bitcoin, Litecoin, Monero, etc.). NO PayPal/Skrill/whatever.

I'm not the type of person you can scam so please don't waste my time.

Thanks!

If you are going to buy bulk, I can offer you for like 35 cents per verification.
