I want to get into music but i have this dillema and confusion.

Since i was a kid i listened to rap and punk, i was a huge fan old school stuff like Eminem, Dr Dre, Snoop G, 50 and others, i also listened to american punk like Green Day, Avril and Sum41. Then trap come to mainstream and i started to loving pop and mainstream music (R&B. Trap. EDM).

I just wanna lay over my vocals over but idk where to start. Like i want to sing, but i want to rap. I love lil xan and lil Pump but i love Justin Bieber, blackbear and ed sheeran too!

What to do? Should i give up?
