Hi Zilliqa,

do you care explaining it a bit more in a private message? :-) I'm not asking for a vouch copy but from the information given, I can still give the users a small feedback.

Sent you a PM.

To clear this up for everyone else I won't be giving vouch copies to anyone because it's not normal 'punt betting/gambling' and it's actually 100% impossible to lose while doing this so I don't see any reason for vouch copies.

What's the difference in your product and something like OddsMonkey or ProfitAccumulator, which are free??

(Jun 20, 2018 01:45 PM)Castro Wrote: [\[CITE\]](#) What's the difference in your product and something like OddsMonkey or ProfitAccumulator, which are free??

Neither are completely beginner friendly (in my opinion), The first part is usually the hardest part for everyone who starts this and there's no guidance from either of these on a 1 to 1 level and when I first started I know I struggled and wish I had something like this. My guide also offers the full mentorship and it's obvious i'm not going to get a huge amount of people getting this since it's UK only so the people who do buy I will always have time for. Not to mention there is a few odd things that any of the big ones will not talk about such as gubbing, multi id'ing, etc.

England game is tomorrow, some pretty big profits to be made on this one. PM me if you're interested in this.

Ice - June 24, 2018, 1:40 am

Few hours till kill off in the England game, I can help you get everything set up before then so you'll be taking a decent profit, PM me with any inquiries.

Ice - June 25, 2018, 2:06 am

Hugely successful day yesterday with alot of profit made on just the England game alone, PM me any questions.

Ice - June 27, 2018, 10:57 am

England play again vs Belgium tomorrow and since it's going to be their biggest/best game up to now I'm almost certain it'll be the one with the most profit, personally made almost £200 on this game up to now with 24 hours still to go till kick off.

Ice - June 28, 2018, 1:36 pm

Ended up making £370 profit on the England game, i'm calling that a decent result, PM me if you want too make some money with me throughout the rest of the world cup and plenty more events.

Ice - July 1, 2018, 1:50 am

Tuesday will be a huge day in terms of making money because England play there first game out of groups and could potentially be Englands last game in the world cup, big money opportunity here, pm if interested.

Ice - July 3, 2018, 1:09 am

As I thought today is huge already and we're still 10 hours away from kickoff, by far the biggest profit i've had since the world cup started. Still time to get all yours sorted, pm me.

Is it online betting?

I say UK only because that's where i'm from and know the gambling laws here and how to take advantage and basically means I can spoon feed anyone who purchases basically free money where as other countries it might need people to do their own research and some people won't be happy with that.

World cup action starts again today so plenty of money to be made again + England play again tomorrow, will be a BIG 2 days!

Ice - July 9, 2018, 1:10 am

England through again which only means one thing, even more profit, already started making

money on the two upcoming games in the next 2 days.

Ice - July 12, 2018, 1:30 am

Still 2 more world cup games left and i'm guessing alot of profit will be made on these 2 games alone, could be the biggest 2 games in the world cup yet.

Ice - July 15, 2018, 1:58 am

World cup final day today, and if you buy today you will make your money back from purchasing 100% just from this one game.

Looking at this beyond the WC which is nearly finishing. I would presume this would still work but with profits being a lot lower, correct? Or will it end per se after the WC?

When big sporting events are on I guess you could say it's 'extra money' but there's still a ton of profit to be made even if nothing was on so I wouldn't say alot lower at all really, just abit less.

Dont know anything about OP, but all I know is matched betting in the UK is a real thing, 100% risk free if done right or you can do stuff with small risk but for more profit, tons of guides and info out there but having someone to mentor you and help you right from the start would probably help a lot.

hey ziliqa

How often does the method generate cash ?

I mean do I have wait and to bet only on certain types of matches (like big league matches) ?

or will the method work week after week ?

Am looking for something that I can use to generate a little extra cash every week to add to my income, like 100-200 quids.

Hi,

This method can generate cash everyday, however in times of big sporting events it will generate 'more' cash.

No you don't have to wait, there will be thousands of games every day you can do it with.

You will start earning today as soon as you start.

LegendaryFox - September 18, 2018, 10:14 am

Okay, it has been around a week since I bought this method.

One thing I want to bring out of the box right away, Is that I started with a very low bank, £20. If you are able to set aside a bit more like 50-100(or more) then you will be experiencing a lot more profit / per match/offer as you don't need to "build your bank" and you can easily get the advertised price of 600+ per month.

I have turned £20 into around £100-105 and it's growing as we speak. Also, Zilliqa is always available to help/support any questions I might have. It's my best £40 I have ever spent. It's mind-boggling how easy this is and how the profit increases the more you have (when you have a "bank") as you will be able to do more offers in a single go

There is other countries that can also do this but too keep it nice and simple I do say UK only sometimes just so I know anyone that purchases will have a good time doing this and won't run into any complications. However if you're from another country and want too give it a try message me what country you're from and I will look into it.

Yes it it involves online bookmakers.
