Thread: [Report User Function](#)

Kraith - June 19, 2018, 3:18 pm

The report user function doesn't work when you try and report them from their profile page. Just thought I should say something, I was trying to report someone and it printed out an error as if I was trying to report a post.

Contact someone on the [Forum Staff and Admins](#) page.

Omniscient - June 19, 2018, 11:06 pm

Do you mean the "Sorry but you cannot report posts older than 48 hours. If this thread is important to be junked please contact staff directly via PM." error on the profile page?

Realistically I don't want members to report from profiles. I have removed the REPORT link from the page.

Yes that's exactly what I meant. Going to close thread now looks like it's resolved
