For MW3 (XB1), do you add Godmode + Invisibility + AUG classes as well?

What if I got deranked by another modder/hacker?

What happens if I break Godmode classes and it stops working?

Just GodMode and Invisibility.

If you get deranked I'll do it again for free, one time other only.

If the classes were to somehow break, I'd redo them again. (One time only)

Paid twice for MW3 recovery due to some random modder in the game deranked me, his service went resale smooth, no issue ma within both recoveries he done for me
