A few days ago Chief approached me offering a vouch copy. I took it and promised him to leave a review, any earnings etc. I can vouch that Chief is a extremely professional businessman, and above that, an entrepreneur and a mentor. He took it upon himself to guide me through everything and make sure I knew what to do, he helped me for at least 2 hours every day.

After getting everything setup I was pleased to see the results roll in, all within about 8 hours, I am very pleased to have this income stream set up, and I believe I'll be earning thousands soon. Thanks, Chief.

What? I thought maybe he released an update or something like that. I don't have all the methods, only main one which I was given to test if it's working/vouch. If he has other methods which are similar to the one he gave me I am gladly going to purchase them all.

Not to mention Chief told me he was planning on releasing an update soon (which I'm obviously not going to get) so I wanted to purchase the method in case it got released.

No where on the thread does chief say that there are multiple methods? Every single line on the thread tries to convince customers that only 1 method is being sold. I mean you made \$700 from your "vouch copy" 5 minutes after the thread was posted and now all of a sudden you have no clue what the method includes?

Wtf are you talking about? Chief gave me the method long before he posted this thread or had any

intentions of selling it. He told me that he plans on updating the guide and that the new update is going to include new method(s), which I won't get since I didn't purchase it.

I know very well what method includes and it's working, I thought he updated the guide with new method (THAT HE TOLD ME ABOUT) so I wanted to know what did it involve before purchasing. Yeah, I want to purchase it. If methods he is going to add are even half good as the one he gave me before, I'll happily spend \$150 (or \$300) on it.

Exactly what Chief said. Being a young user I was quite busy with finishing school and exams this past week. Chief has been very patient and cooperative with his hours to make time available to me. ChinoTime - July 12, 2018, 7:05 pm

Got done with the session. Methods are good, they aren't ones I have seen in other books. Support from Trapp was good as well, he answered some questions and helped me in the right direction. Haven't made any profits yet and won't pick it up until tomorrow bc of RL things. Will continue to update with profits when they roll in.

been asked to write a update on my time with this method, here it is.

chief is incredibly helpful, he and Trappy, the support agent, are constantly online to help. I've bought a lot of methods and I can really say this is the best of them. I set up the method in like a hour and just monitored and stuff and I earned \$402 dollars in a day, f**king insane. Profits are going up too because its easy to scale and stuff and the team helps a lot.

if you do not believe me, here is a proof of the earnings [https ://i.imgur .com/jP2ouzO.png](https://i.imgur.com/jP2ouzO.png)

Hi,

How much time need to dedicate daily?
Autopilot, semi?
Involves talking/chating with other people?
Create a website or need any traffic source?
does it involve dropshipping?

Thanks

chief was very responsive at all times, if he was ever busy he told me first. i ended up starting with him under teamviewer, i set up his method and i had earned \$139 by the next hour. i kept going hard with the method since i was motivated and got up to \$414 in the first 2 days.

chief is a very good man and his method has made bank for me. i recommend this.

Am interested in buying this method. A few questions though.

- 1.Do I need to invest more money to earn? If so how much?
- 2.Do I need to use a VPN?
3. What's the realistic conservative daily earning if I put in 4 hours daily on this.
- 4.Any other tools/resources I need to make this work?

Looking forward to response. Thanks.

Trappy doesn't have a single message for support from you, he doesn't ignore his customers. Send him another message on Skype with whatever the problem is.

He does because we talked about it and he tried to offer something that wasn't part of the issue. I told him that and what I wanted as a resolution but no reply since.

Idk if he told you he didn't get anything but he certainly did. Lack of communication is a huge issue throughout this.

I even private messaged you a couple days ago and no reply. I don't like doing these posts but I've gotten no response

Thanks for the inquiry. I'll let him know about this.

Regarding the private message, I replied to you at 7:32 PM on 11 December.

Please send a message once more and state your HF username.

It's been four days and I'm running out of patience.

Okay the author told me I'll get a refund a week ago, and I still haven't received any refund. Been asking him daily and he barely replies. Will do a more in-depth post later about my experience with him.

You will need to follow the terms of service regarding a refund.

Would not purchase. Methods are saturated and there is no margin for profit.

Methods are public with a simple search.

Investment is required in order to even start these saturated methods.

Tried getting refund from seller but he wasn't cooperating. Kept ignoring message and refused to refund.

Paypal dispute has been created due to seller not wanted to refund for his misleading/saturated

methods.

Even warned seller I didnt want to dispute the payment and didnt want to make a negative review.
He didn't care.

You have better odds of making money from scratch offs.
