Thread: [Web design, gigs, and graphic design](#)

shirothahacker - June 21, 2018, 12:28 pm

Hey HF community, so i am really desperate to meet a payment deadline so i am here offering my services.

I am a web developer specialized in Laravel Framework, i can web design and convert PSD to html sites, i can do meaningless tasks and gigs like uploading of files/videos and audio anything, create multiple accounts, post on forum, also i can design logos, thread design and more basically graphic design in general.

let know me, it would really help and i am really affordable.

Thanks

siur - June 21, 2018, 12:41 pm

Bump, someone give this guy something to work on.

ohh yeah, i cant access hf the normal way, that's why, i can explain via pm if you want

Scrat - June 21, 2018, 7:29 pm

Why don't you explain in plain sight so you can let all of us know why that's happening?

You better do OP, otherwise you might get banned.

Do you have any portfolio of your graphic work you could show?

SweatShop - June 21, 2018, 7:34 pm

10 HF Users on the same Proxy? Hmmmmm....

exactly!! mate

hey i need something to do please

Arctic Wolf - June 21, 2018, 10:26 pm

I will try to supply as much information as I can but I am looking for a quote for the following website development work:

1. Content change (I have all the texts needed basically)
2. We need the Buy and Sell pages completed
3. I also need a couple of payment gateways created.
4. Images on the website updated (I am having them made as we speak)
5. Live-Chat
6. and maybe some design changes but that's up to you.

My Website: Runegoldshop.org

The content there is just there for a place holder nothing more.
