Thread: [scan and exploit wordpress scan and exploit wordpress vulnerabilitiesscan](#)

atuldotkumar - June 21, 2018, 1:11 pm

Hi all,

i am new here.

I want to hack a wordpress I tried many thing like wpscan hackertarget and much more

may be he installed plugin named as (wordfence) coz i got username but wpscan is not scanning vulnerabilities.

anyone here who can do that work for me means hack that website.

I will pay good amt.

mail me on "atuldotkumar@gmail.com"

Cheers
