omni rep fucked you :(

Deany - June 21, 2018, 4:33 pm

Yup they got reset. Btw hi Elegant haven't seen you in a minute.

Full rep reset. The system had some fancy additions to it as well. I think the high lords wanted something new with the Rep system to stoke a better way to deal with the marketplace. There is a post around here somewhere where Omni explained everything. I'm just too lazy to dig it up again. Hopes that someone else will.

I was confused too when I joined hack forums there was just one reputation system but now there is a b rating thing, I'll have to go through the help documents when I can be bothered too.
