Thread: [Fade and Vyrez. Multis or Impersonating?](#)

Techius - June 23, 2018, 5:23 am

I'm basing this community alert off the fact that both Fade UID=1716927 and Vyrez. UID=2439716 are claiming that the same Skype is them.

In each of their sale threads, they both say say: "If you need support, or have any questions then you can contact me with the following: Skype: doomgermen"

<https://hackforums.net/showthread.php?tid=5757279&highlight=doomgermen>

For this thread: <https://hackforums.net/showthread.php?tid=5850334&highlight=doomgermen> "If you have any questions, please PM me or add me on Skype: doomgermen"

I don't think there would be much of an issue if they said that it was another persons product and they were clear that they were reselling. If it was phrased like "I'm just reselling this, but if you need any support please contact the original seller on Skype: doomgermen". What this is about is that they're both claiming to be doomgermen on Skype.

This isn't actually the first & only instance of them both claiming to be "doomgermen" on Skype. HF search entire posts for "doomgermen".

Both Fade & Vyrez. are selected for that username when you search those posts. They both claim to be "doomgermen".

Like I said, if it was just reselling they need to further clarify their language. Otherwise one or the other is impersonating which is quite dangerous or they could be the same person which goes against the rules.

Stay safe HF!

Did proxy-selling ever spring to mind before you started writing this nonsense?

Maybe they are just working together and have one Skype account? or they are reselling(/proxy) selling for the same user?

I don't think that they are multi-accounting. But we'll see. Interesting find though!

I stated that it could be a consideration in the thread.

"Like I said, if it was just reselling they need to further clarify their language."

The problem is that they're both claiming to be doomgermen on Skype. The ramifications of which are explained in the original topic.

There you go, clarified ;)

Nothing to worry about Techius.

No, they are just working together. It's a partnership and including info about what their exact agreement is (who offers support, who owns the rocketr acc etc) would be counter productive. No buyer cares about that.

Techius is on the road to the most stupid member on the forum award. He couldn't get anywhere with my dispute tried trashing my sales. Actually made me \$200 and thinks Interest on HF products exist

Fade is proxy selling for Vyrez. It's allowed with the condition that both users must not be selling the same product at any point in time.
