Ben Stiller,  
uid=3889690 failed to deliver 100 bots for \$20 - basically scammed for 20 dollars.  
Stay away from this dirty scammer.

I paid him \$10, he claims he can't send that low amount of bots because it will ruin his exploit kit (even though he asked right 2 minutes before to send just \$10). I knew what he says is bullshit but for the lulz I decided to send him another \$10, to see what happens. The result is obvious.

He didn't answer ever again nor deliver anything.

On page 2 of his sales thread you can see people claiming they got put on ignore right after paying:

Talking random bullshit, no idea why he didn't just ignore:

I propose to ban this member from the forum ?

Yeah, no. The minimum is whatever you told the buyer in PM, which was \$10.

Also notice how the user that vouched for you on the thread makes the same grammatical and syntax errors, adding spaces inbetween punctuation etc. Both accounts even spell thanks as "thank's", haha wow.

It's so obviously your own multi, you are not very good at this are you? Scamming for \$10?

Look the thread.

"Send me \$10"

"Send another \$10"

Now send another \$10.

You're an idiot.

Also this member said "the admin of this forum doesn't ban scammers" ?

Keep scamming kid ?
