Thread: [\[Autopilot\]\[No Work\]\[Minimal Setup\]\\$1-\\$25 per day on autopilot! UNSATURATED](#)

White Partyhat - June 24, 2018, 9:29 am

Some cheeky cunt bought the method and reported it to the admins, so apparently it will give much less.

So I decided to give this away, this might be \$1 per day, but it's still decent.

PM me or post below and I'll give you this.

[Or you can use this \(It's a pay what you want with \\$0 minimum\)](#)

riotgamesiscancer - June 24, 2018, 11:14 am

The method is simple..

go to twitch.tv/expanseofficial
sub to the channel and just sit in the chat..

Thats literally it.. I mean if you REALLY wanted to you could just join the twitch IRC channel of the same name as long as your irc username is the same as your subname, that way it doesn't eat up your BW as much.

PS. Thank you for all of your subs. OP is still a cancerous cunt though.

I'm stuck at this step

then open your terminal and change your directory to that folder. then you type in these lines:
Code npm init
step 1 in order to open the terminal in a folder, you press shift+ right click and open command window here

step 2 type Code npm initwhen I do it says it can't identify [code]npm or some shit

anyone got it working can help me?
