Thread: [I wanna try snapchat ewhoring](#)

squin - June 24, 2018, 1:01 pm

I'm a girl in distress and I need an experienced ewhorer to help me. I've been ewhoring on kik for about 2 months and I've made quite a good amount but I keep reading about this gold mine called Snapchat and I'm very eager to try something new, specifically selling premium. Unlike some guys on here, I'm not looking for traffic sources, packs, methods, prices, I've got that all down. What I do not understand though are some Snapchat technicalities, so

1. when selling premium, do you guys talk to your clients or do you sell via stories?
2. if you sell via stories, where does the link lead to? what's the bridge between "swipe up to see my pussy" and "you recieved \$40 from John Smith"? Like where does the link lead to?
3. And what's the aftermath? Do you deliver like 10 nudes instantly and then 2 on a daily basis for the rest of the ewhore's life or how does that work?

I don't need a detailed picture step by step tutorial, I just wanna get the general idea so I can figure out the rest by myself. Please reply on here or PM me. Thank you very much.

And I don't ewhore myself so don't even try ?

You usually advertise on your story that you're selling a premium snapchat, you can either lead them to a PayPal.me link or just say they have to message you to get it.

I usually just repost what the person I'm using is posting on her premium snapchat.

If you are a girl and would sell your photos / work with me, we would make bank. PM if interested

Thank you fot the advice, I'm about to set up my account and try all the features to see how everything works since I've never really used snapchat before. Thanks for the offer, I'll PM you if needed
