Thread: [Need reviews for my ebook](#)

sadfire - June 25, 2018, 3:01 am

I am selling a money making ebook and it isn't getting much attention, would like to get someone who will make a short but full detailed review not some "method will work vouch" vouch...

Maximum of 3 copies to be given out, and only to be given out to trustworthy users who will not run away.

Not sure if I fall under your criteria, but if granted access to this ebook, I am willing to write a FULL and extremely detailed response. Let me know!

Hey there!

Feels awesome to find another seller that cares about reviews before launching the actual product! I would provide an honest 100-250 word review within 48 hours - let me know if you are interested. -Caligio ?

Please send me a copy, I always leave HONEST reviews, if it's shit you will get exposed (you can check my latest reviews + a community alert).

I will be happy to review everything and leave a feedback, I mostly write long and detailed reviews with pros and cons.

Let me know, thanks.
