Thread: [\[100% FREE\] Parko's HIGH QUALITY Graphic Design Service - LIMITED TIME OFFER](#)

Parkoism - June 26, 2018, 10:27 am

Hello, everyone.

To kick-start my HF account and gain the trust of members on this forum, I've decided I am going to be offering a FREE graphic design service for the first 20 members who ask for work. I will only be offering this to L33T, 3PIC, & UB3R members only. I have 4-5 years experience with Adobe Photoshop and I will be making my portfolio out of work I create from the 20 clients I gain from this thread so as you can imagine I will be producing work to only the best of my ability. Once I have received 20 clients, I will start charging for my work so if you want high-quality work without paying a dime you better be quick. I will complete all orders in under 24 hours, probably less.

What I offer:

- Signatures
 - Thread designs
 - Logos
 - Avatars
 - YouTube / Twitter Banner
 - Poster
 - Any sort of advertisement NOTE: I can't do any sort of design which requires Adobe Illustrator.
- If you're interested in my free service, simply leave a comment using the following syntax:

What it is (e.g. signature, thread, logo etc.):

Text (PM me it's a paragraph / few sentences):

Color(s):

Overall theme of the design:

Anything else you might have to tell me:

I will regularly update this thread with images of the work I complete for people so you get an idea of my skill level.

Otis??????????????? - June 27, 2018, 12:01 am

What it is (e.g. signature, thread, logo etc.): Logo

Text (PM me it's a paragraph / few sentences): "The Global Vision" or "GV"

Color(s): Black and white for now

Overall theme of the design: I don't have a overall theme. I just want a logo that can be used to represent The Global Vision , or GV for short. I would like the logo to be used for social media accounts and potentially look nice enough to be put on a shirt.

Anything else you might have to tell me: I want to see what could potentially be made using the name GV or The Global Vision. When I hear GV I don't really think of an idea of a logo so i don't really know how to give you detail onto what I want. Some examples of logos that I like are from the following brands that can be searched online: Faze Clan & TLB (The Lost Breed)

It may look as if I'm asking for a lot considering you're doing this for free but I would just like to see what other graphic artists can come up with because I don't really have a set idea for the type of design I'm looking for.
