A little bit about yourself: I started with Graphic design back in 2011/12. After doing it actively I created my YouTube channel, where I constantly uploaded SpeedArts (examples above). Other than Photoshop I can handle Adobe Lightroom, Illustrator and After Effects very well. If its worth being mentioned, I can also work with Source Filmmaker and a little bit with the Unreal Engine. I am very passionate if it comes to Graphic design and Art in general, also taking photos and editing them in Lightroom is hell of a fun to me.

I hope I'll make it in as it would mean a lot to me to meet some talented graphic designers.

[ALL DESIGNS ARE MADE FROM ME BESIDES MY AVATAR]

A little bit about yourself: I've been doing YouTube since 2007 from old channels and my current channel has been there since 2012 which is a little bit after I got into Graphic Design. Back then on YouTube, getting partnered was really difficult and Custom Thumbnails were pretty much the reason why some YouTubers got big so when I got partnered, I started getting into Graphic Design heavily and to this very day, I'm still designing and defiantly improving. My style is a bit different from other peoples' but I was told I was good. For my Portfolio, I just put my Twitch & YouTube Channel since every design is made by me. Looking forward to your guys' response!
