Thread: [\\$5 Crypting Service | PayPal Accepted! | 100% FUD | Runtime and Scantime](#)

Pantrox - June 27, 2018, 12:31 pm

The stub is developed with C ++ 100% native, it does not have .net support

The price of the service is: 5\$ per Crypt

Native: 100%

FUD: 100%

Options: Binder, icon, Assembly info.

For screenshot send me PM with your email.

I hope you don't plan on using that stub on any files for your crypting service since you just distributed it to atleast 16 av companies.

It is undetectable, it is true that Jotti distributes the file if it is detected, but it is not detected. ?

Nope, Jotti distributes all files even if they aren't detected:

Quote:All files are shared with anti-virus companies so detection accuracy of their anti-virus products can be improved

You're right, but I assure you it will be undetectable.
