Snapchat++ isn't a issue with the type of traffic you're gonna get. But yes, there is one of the 3 methods that contains snapchat, but can also be optimized on a few other platforms that is mentioned.

Paypal option removed.

getting positive-only vouch copies is not very legitimate as good as it sounds. nothing in this world is perfect. no method is perfect. so, if reviewers of your ebook can write about positive side, i want to hear the negative side too. what is the downside of this method?

The downside is probably that one of the methods is pretty hard to understand if you're a complete newbie. I've simplified everything in the methods so even noobs can understand it(mostly, but also offering support). There's also multiple methods so costumers can choose which direction they want to take and what sounds most interesting to them.

TyTheAnon - July 27, 2018, 12:06 pm

Is this pretty much guaranteed? How much do noobs make on average? New to e whoring that is.

I do offer standard support on both packages, and if you're willing to use that little extra time to get the basics down then starting out completely fresh you could do \$250+ first month if not more.
